TEACHING AND LEARNING METHODOLOGIES AND ACTIVITIES:

Teaching and learning methodologies and activities applied:

The learning methodology in this course is based on the student's independence and responsible work (alone and in pairs/ group work), creative thinking, curiosity, research tools, readings and personal effort.

The course will have some hours of lectures, but we'll have mainly in-class analysis and discussion about photography, photographers and the profession, class presentations (individual/ pair/ group), photographic assignments during the class (in classroom and outside), individual/ pairs/ group projects, readings and shootings during class and outside class time.

Individual work will be the main part of the learning methodology. Students will have to participate in reading, researching, preparing projects, shooting, editing and explaining every assignment on their own (sometimes in pairs/ groups).

There is a FACEBOOK subject page associated with the address: pirala@usj.es, where news and useful information related to the own academic, professional and creative content of the matter are linked. The students must access it for the enrichment and interaction with the subject. You can also access the address TWITTER @IralaPilar, where news about the contents of the course will be linked. There is also one interesting options with boards and pins on visual culture and photography: www.pinterest.com/IralaPilar/photography

Use of personal computers and other smart devices: New technologies are fundamental in our education, work and social relations and this is why students are encouraged to use them maturely and responsibly, but its use is forbidden during the classes unless expressly indicated by the teacher. Notes will generally be taken on paper. All smart devices must be turned off during the classes. Non-compliance with these rules may mean expelling the student from the class and the student failing continuous assessment.
