

BASIC DETAILS:

Subject:	INGLÉS		
Id.:	30045		
Programme:	GRADUADO EN INGENIERÍA INFORMÁTICA. PLAN 2008 (BOE 15/12/2008)		
Module:	LENGUAS MODERNAS		
Subject type:	MATERIA BASICA		
Year:	1	Teaching period:	Annual
Credits:	6	Total hours:	150
Classroom activities:	66	Individual study:	84
Main teaching language:	Inglés	Secondary teaching language:	Castellano
Lecturer:		Email:	

PRESENTATION:

Students coming to the first year of university will notice that there is an ample opportunity to practice and recycle the English that they have studied at school throughout their lives. This course, through providing future IT specialists with technical English, most definitely prompts students to use English for their everyday social and professional use. The course is driven by the competences recommended by the Common European Framework for Languages. These competences are listed below in addition to other field specific competences. It is important that students keep these competences in front of them and work towards them, See more about the materials and activities in the other sections.

English in this course (Reading, Speaking, Listening, Writing, Grammar and Vocabulary) will be taught/ learned in relation to IT topics and themes. These topics and themes range from technical and academic to social and cultural. The course starts at a B1/ B2 level and adapts to other levels.

PROFESSIONAL COMPETENCES ACQUIRED IN THE SUBJECT:

General programme competences	G03	Capacity to work in multidisciplinary teams to achieve common objectives, placing group interests before personal ones.
	G05	Capacity to adapt to different environments while being positive and optimistic, orienting your behaviour towards the achievement of goals.
	G08	Ability to communicate effectively about different matters in a variety of professional situations and with the different media available.
	G10	Critical and analytical capacity when assessing information, data and courses of action.
	G11	Ability to get on in a multicultural or international environment, interacting with people of different nationalities, languages and cultures.
	G13	Capacity to use individual learning strategies aimed at continuous improvement in professional life and to begin further studies independently.
Specific programme competences	E08	Capacity to communicate productively with clients, users and colleagues both orally and in writing, so as to pass on ideas, solve conflicts and achieve agreements.
	E09	Capacity to maintain professional competences through independent learning and continuous improvement.
	E11	Capacity to remain up-to-date in the technological and business worlds in the area of information and communication technologies.
	E14	Capacity to define, run and give classes for continuous training programs for the technical personnel.
Learning outcomes	R01	Understand the main points of clear texts in standard English when they are about already known issues, whether from work, studying or leisure.
	R02	Cope in the majority of possible situations in places where English is used.
	R03	Produce simple, coherent texts about topics that are familiar or in which they have a personal interest.
	R04	Describe experiences, events, wishes and hopes, as well as briefly justify their opinions or explain their plans.
	R05	Apply their knowledge of English to tasks, projects or presentations related to computer engineering.

PRE-REQUISITES:

Students are expected to have a high B1 Level. The Institute of Modern Languages offers general English courses at levels A2 and B1 and if the student has an A2 or low B1 level they should sign up for one of these courses in September so that they will be able to succeed in this course

SUBJECT PROGRAMME:

Subject contents:

1 - Overview and Self Assessment
1.1 - Language needs analysis
1.2 - Vocabulary Learning Strategies
2 - Academic and Professional Skills
2.1 - Preparing for a Presentation
2.2 - Problem Solving and Troubleshooting
2.3 - Debate
2.4 - Ethics in IT
2.5 - The history of ICT
2.6 - Software Development
2.7 - Efficiency in Computer Systems
3 - English Language Skills
3.1 - Practicing Genres- Definitions/ Descriptions, Categorising/Sequencing, Analysis skills, Giving instructions
3.2 - Technical and academic vocabulary work (including pronunciation)- Meaning from context, Word classes
3.3 - Grammar work - Sentence Structure, Compounds/Collocations, Qualifying/Comparing, Comparative/Superlative etc
3.4 - Reading and Listening Comprehension
3.5 - IELTS preparations
3.6 - Academic English
3.7 - Book Club
4 - Oral and Written Tests
4.1 - Listening and Oral Tests

Subject planning could be modified due unforeseen circumstances (group performance, availability of resources, changes to academic calendar etc.) and should not, therefore, be considered to be definitive.

TEACHING AND LEARNING METHODOLOGIES AND ACTIVITIES:

Teaching and learning methodologies and activities applied:

The teaching methodology used is a communicative approach in which students learn by working in groups or pairs speaking English to the lecturer and among themselves. The use of this approach guarantees that students use the grammar, vocabulary and language structures acquired. Classes will be developed using a wide range of texts and different pedagogical resources. Classes will include listening, speaking and reading activities. Writing tasks and grammar exercises will be done as self-study. The methodology encourages students to learn in a more independent and responsible way towards their own learning process. Self-learning strategies (in relation to listening and vocabulary learning in particular) will be taught in class to help students develop a more productive and independent way of learning.

Theoretical/ Practical sessions: Students are expected to participate and interact in class, ask questions, make suggestions and solve tasks. Outside class students must complete all the independent study tasks assigned and attend tutorial sessions whenever possible. This can be done by consulting the lecturer during office hours (or by appointment) to resolve any questions related to the subject.

Homework/ tasks: Students are expected to prepare every week for class. The novel must be read at home each week on the weeks indicated and students must be ready to discuss it in class and the

group presentation will be prepared outside of class too.

Academic expectations: San Jorge University maintain a high standard of academic integrity among its faculty and students. In becoming part of the San Jorge University academic community, you are responsible for honesty and independent work. Any student who takes part in any act of academic fraud will be seriously taken into account and your grade will be considerably reduced. Dishonesty and/or plagiarism includes, for example: using another person's ideas without referencing appropriately; inventing a bibliographical reference or pretending to have consulted one; inventing research results without having done the research, etc. This inappropriate behaviour will be considered especially in relation to texts copied from Internet. ALL work must be your own work, without the help of others. Writing that may primarily be someone else's work will not be accepted. To clarify what kind of help is admitted, refer to the following list.

YOU MAY:

- Consult with your teacher during office hours.
- Write notes or questions on your drafts about particular doubts or problems with expressions that you may have.
- Consult Dictionaries and grammar reference sources.

YOU MAY NOT:

- Submit any writing that translates your writing from Spanish to English.
- Academic dishonesty will not be tolerated and will automatically result in a mark of 0(no second chances given!). It only takes one act of academic dishonesty to fail the entire course.

Courtesy

Everyone will be encouraged to participate in class and it is essential that full courtesy is awarded to your classmates. Intentional class disturbances (for example: using instant messenger programmes, accepting a phone call during class, text messaging or listening to personal audio will not be tolerated.

Student work load:

Teaching mode	Teaching methods	Estimated hours
Classroom activities	Master classes	10
	Other theory activities	10
	Practical exercises	10
	Practical work, exercises, problem-solving etc.	10
	Debates	4
	Coursework presentations	8
	Films, videos, documentaries etc.	2
	Workshops	2
	Other practical activities	2
	Assessment activities	4
	Tutorials	4
Individual study	Tutorials	4
	Individual study	10
	Individual coursework preparation	20
	Group coursework preparation	10
	Project work	10
	Research work	10
	Compulsory reading	10
	Recommended reading	2
	Portfolio	4
	Other individual study activities	4
Total hours:		150

ASSESSMENT SCHEME:

Calculation of final mark:

Written tests:	40 %
Individual coursework:	35 %
Group coursework:	15 %
Final exam:	10 %
TOTAL	100 %

*Las observaciones específicas sobre el sistema de evaluación serán comunicadas por escrito a los alumnos al inicio de la materia.
